Protection against lightning: UK guide to the practical application of BS EN 62305:2006

This new book is a comprehensive companion guide to the new British standard BS EN 62305:2006, which aims to promote a consistent approach to the standard's usage in the field by offering practical interpretations of its formal approach.

BESTSELLER

• ISBN 978 0 580 50899 8 • BSI order ref BIP 2118
Price £75*, Member Price £50

BS 5266-1:2005 Emergency lighting. Code of practice for the emergency lighting of premises

BS 5266-1:2005 gives recommendations and guidance on the factors that need to be considered in the design of, and the installation and wiring of, the electrical emergency lighting systems specified in BS EN 50172/BS 5266-8 in order to provide the lighting parameters specified in BS EN 1838/BS 5266-7.

POPULAR STANDARD

• A4 Loose-leaf/PDF • 36 pages
• ISBN 0 580 46820 8
Price £142*, Member Price £71

BS 5266-10:2008 Guide to the design and provision of emergency lighting to reduce the risks from hazards in the event of failure of the normal lighting supply

BS 5266-10 provides specific guidance on:

- Hazards that can arise in a building as a result of the type or number of occupants, the design of the premises and activities carried out within it
- The actions occupants have a responsibility to perform in the event of a normal lighting supply failure.

BS 5266-10:

- Gives recommendations on the factors that need to be considered in the design and provision of emergency lighting systems
- Helps reduce risk in the event of a failure of the normal lighting supply
- Offers advice on appropriate emergency lighting levels, initiation times and working planes.

NEW STANDARD

• A4 loose-leaf/PDF • 26 pages • ISBN 978 0 580 58881 5
