While not being a perfect game, I believe that in my opinion, this is the best game in the series. I love the XP system, the towers, the maps, and the new additions, and how this game grew from the BTd4 Expansion.

This game features a new art-style not seen previously in the past 4 games, and it looks a lot cleaner, and smoother. The new Special Agents feature is much appreciated, as it added some great new towers whilst using the Monkey Money well, such as the Tribal Turtle, and the Monkey Farmer. These Special Agents can also be upgraded with the Pro-Mode, that involves you getting 50 of the same type of Special Agent.

Overall, this package of a 10 dollar game felt complete, with a new upgrade system for the monkeys, a ton of brand new maps, and even CO-OP mode and missions. This is a must buy for anyone looking to kill time, or just looking for a good time.. Fun game to play when you need to pass the time. Very relaxing.. fun game it is quick to learn and hard to master. this game is a masterpiece beautiful. I cannot describe it, like words cannot describe it, it is too good. the emotions. the sleep deprived emotion of the monkeys trying to defend their land from the balloons. using every last chalk of enegery they have. blood milk and water. I cannot count the ammount of times I had to turn of my computer due to pure stress and anxiety that the balloons would over come the defense lines of the monkey children. it reminds me of the 10 years I spent over seas in africa, defending my penal cavity from the thristy african women and my anal cavity from the ejaculant deprived african men. its tough out there. 100 slime salute for my fallen apes and africans ('-')7
